Supported a Renowned Vehicle Manufacturer in Transforming their Legacy System Leveraging a Cloud-first Approach and Introducing a New Application Module

#### **Business Challenge**

The client is the largest privately held full-line recreational vehicle manufacturer in North America. They faced issues in their existing IT infrastructure using a third-party-owned legacy system. The primary concerns raised included

- · Outdated IT infrastructure
- · Scalability and data integration issues
- · Incompatibility of existing website with different browsers
- Recurring high costs

### **Impact**

## **Our Solution**

The client chose Motherson Technology Services to overcome the challenges mentioned above with the help of legacy modernisation services that helped them move their key processes online for the ease and convenience of their customers

- Built an Online Part Store for clients' end users and re-sellers by changing and transforming their procurement services from offline to online
- Modernised the Online Warranty solution by eliminating the dependency on obsolete third-party vendors. The new solution helped to file and manage claims and registration online
- Provided integration of OWS with their legacy system to perform AR/AP activities
- Provided Jasper as the reporting tool for quick and easily downloadable reports

#### **About The Partner**
