

# An Effective Communication System Helping Seamless Flow of Information with My Plant Application

## Business Challenge

The client is a renowned manufacturing firm that found it challenging to share regular updates with the employees amidst the Covid-19 pandemic. Due to the ongoing situation, there were rotating shifts and rosters, and it wasn't easy to adapt to the shift patterns by keeping everyone updated about the happenings in the plant.

Below were the challenges they faced:

Tedious and time-taking information sharing with employees daily

Difficulty in communicating urgent information

Lack of system to notify employees about last-minute changes in the existing event schedule/ plan

## Our Solution

The client chose us to overcome these challenges, and based on the requirement, we provided a mobile application to help employees stay updated with plant information 24x7.

The app consisted below features:

- An admin portal to effectively manage the information shared with employees
- Scalable to a new plant with white-labeling
- Helped create and customize dynamic menus plant-wise

## Benefits Derived

Information sharing made easy

Accessibility to plant circulars

Ability to check employee info

Statistical analysis of data

The My Plant application is currently running successfully at 15 plants.

## About The Partner

Founded in 1975, Motherson Group is an industry leader and one of the world's largest manufacturers of components for their automotive and transport industries. The group's diversified portfolio makes it a complete solutions provider across the globe.
