

# SAP

for an automotive components manufacturer to deliver high-quality SAP implementation services

## About the Customer

The client is a leading manufacturer of plastic technologies with headquarters in Michelau, Germany. The company is implementing S/4 HANA for the last three years and facing challenges. For smooth SAP implementation, client was looking for a certified SAP partner to reduce SAP implementation costs for functional and technical developments.

## Business Challenges

The shift in technology infrastructure presents various challenges to IT departments as well as to the company since the transition hugely affects the business operations.

- The company is looking forward to accelerating their project activities and seeking guidance on SAP best practices. The main objective is to save time to focus more on core business activities and implementing a solution that can be used as a platform instead of just ERP
- Technical errors and downtimes result in reduced productivity and diminished profits. Moreover, the implementation of SAP Cloud Solutions presents several significant challenges
- It's crucial for Motherson Technology Services Limited as a consulting partner to accept all policy-mandated restrictions and the timeline requirements. With years of experience in SAP implementation, the SAP consulting partner ensures that the project stays on budget and time

## Our Solution

Motherson Technology Services Limited deployed SAP S4 HANA domain experts for consultation and in-depth understanding of the business objectives. Custom development along with faster turnaround , automation excellence and Motherson Technology Services SAP extensions for enabling for enabling SAP users to access their account from anywhere, anytime.

- The client partnered with Motherson Technology Services for SAP implementation in a cost-efficient manner. SAP execution is not just limited to software and hardware; therefore, our team assisted the client with the entire SAP implementation process
- The team of skilled and certified SAP consultants helped the client build, plan, develop a roadmap, install, configure, and test the software, keeping the budget constraint and timelines in check
- Mitigating data validity issues are important during SAP implementation. We helped with validating the dataset through sampling
- From strategy and roadmap development to implementation, all the activities were discussed to keep the client informed about the project
- Custom-tailored solutions were developed for reducing operational cost and streamlining business performance

## Benefits

Motherson Technology Services SAP consulting services bring functional, technical, and monetary improvements to the client's business operations. Motherson Technology Services was able to deliver high-quality SAP implementation services with minimal post-live troubleshooting at a minimized cost. Motherson Technology Services transitioned from implementation experts to support consultants for guiding the client on SAP systems on an ongoing basis.

- Accelerated project activities
- Two successful SITs
- 150+ labels and forms tested
- Quality time for users, to focus more on business activities
- Time-saving on business operations
