

Maximize Your ROI with Smarter ERP Implementation

The Client

A prominent Middle East government entity responsible for budgeting, procurement, and technology integration, serving critical public sector operations with a focus on delivering high-quality outcomes.

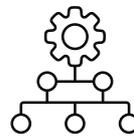

Business Challenge

The organization grappled with manual workflows and siloed data across departments, severely limiting visibility into operations and complicating high-level analysis. Inter-departmental communication gaps stifled collaboration, while rising maintenance costs and stringent compliance demands intensified resource pressures.

- Predominantly paper-based and email-driven transactions
- Fragmented departmental systems lacking integration
- Inconsistent master data leading to reporting delays
- Limited cross-departmental collaboration
- Escalating maintenance and support expenses
- Elevated risks from audits and regulatory scrutiny

Our Solution

Motherson Technology Services delivered a full-scale Oracle E-Business Suite implementation, encompassing Finance, Project Accounting, HRMS, iRecruitment, Sourcing, iSupplier, and Purchasing modules enabling

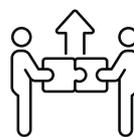

Process Synchronization:

Implemented real-time, unified workflows to streamline operations entity-wide

Advanced Approvals:

Engineered sophisticated approval hierarchies via the Approvals Management Engine (AME)

Customized User Interface:

Developed personalized forms and reporting tools tailored to precise regulatory standards

Business Impact

This transformation unified all financial processes into a single, integrated platform, embedding the end-to-end "Hire to Retire" lifecycle for substantial Total Cost of Ownership (TCO) reductions. Leadership gained a reliable single source of truth, enabling swift, precise reporting to stakeholders.

Motherson Technology Services earned selection through proven public sector expertise and a strategic roadmap transitioning from legacy manual systems to an automated Oracle ecosystem.

- Consolidated platform for comprehensive finance operations
- Seamless Hire-to-Retire lifecycle management
- Significant TCO optimization
- Accelerated, accurate statutory and management reporting
- Authoritative enterprise-wide data repository

Technology Stack

- Oracle E-Business Suite (Core Platform)
- Oracle HRMS
- Oracle Advanced Procurement

Services Provided

- Process Consulting and Optimization
- End-to-End Product Implementation
- Functional and Technical Customizations
