

Oracle SaaS Done Right. ROI Done Better

The Client

A distinguished auto ancillary manufacturer delivering precision components to OEMs across domestic and international markets. The enterprise manages sophisticated financial, supply chain, and performance analytics operations requiring instantaneous intelligence and agile responsiveness to sustain market leadership.

Strategic Imperatives

Legacy systems imposed financial visibility constraints and inadequate mobile capabilities, compounded by disjointed architectures creating data isolation and cost inefficiencies. Market competitiveness demanded a contemporary, high-availability platform with real-time supply chain orchestration and universal team accessibility.

- Delayed access to mission-critical financial analytics
- Disintegrated finance and supply chain architectures
- Antiquated technology foundation
- Escalating operational expenditure
- Constrained mobility for distributed operations

Enterprise Solution

Motherson Technology Services architected a comprehensive Oracle Fusion Cloud Financials, SCM, and EPM deployment to redefine business orchestration.

Cohesive SaaS Ecosystem:
Forged unified integration spanning financials and supply chain functions within a singular cloud framework

Global Mobility Framework:
Provisioned secure, instantaneous data ingress and approval workflows for mobile enterprise users.

Strategic Scalability:
Capitalized on Oracle Cloud elasticity to synchronize infrastructure evolution with organizational expansion

Measurable Impact

The deployment unlocked immediate financial acuity, enabling C-suite agility amid market fluctuations. Transition from on-premises infrastructure delivered enterprise-class uptime, exponential ROI acceleration, and transformative IT cost rationalization.

Motherson Technology Services secured mandate through unparalleled automotive sector Fusion migrations, executing flawless SaaS transition while preserving production continuity.

- Holistic Cloud ERP integration across value chain
- Precision financial and operational transparency
- Enterprise-grade availability with fortified security
- Dynamic scalability mirroring business growth
- Streamlined infrastructure and sustainment economics

Technology Stack

- Oracle Cloud Infrastructure (OCI) & Fusion Applications
- Oracle SCM Cloud
- Oracle EPM Cloud

Engagement Deliverables

- End-to-End Solution Implementation
- Enterprise Process Reengineering Consulting
- Sustained Platform Optimization and Support
